Note: We have made every effort to display the colour choices as accurately as possible. Unfortunately, we cannot guarantee that the colours you see on your monitor are an exact reproduction of the original. Colours will vary depending on screen resolution and graphics card. Wood is a natural product and each plank is unique. The samples are too small to adequately reproduce all of the natural characteristics, including mineral streaks, knots and tonal variations, which appear over a large floor space. Always make sure to verify your colour choice with the Lauzon flooring samples on display at a retailer nearest you.
